

## ACRYLIC PEG RACKING INSTRUCTIONS

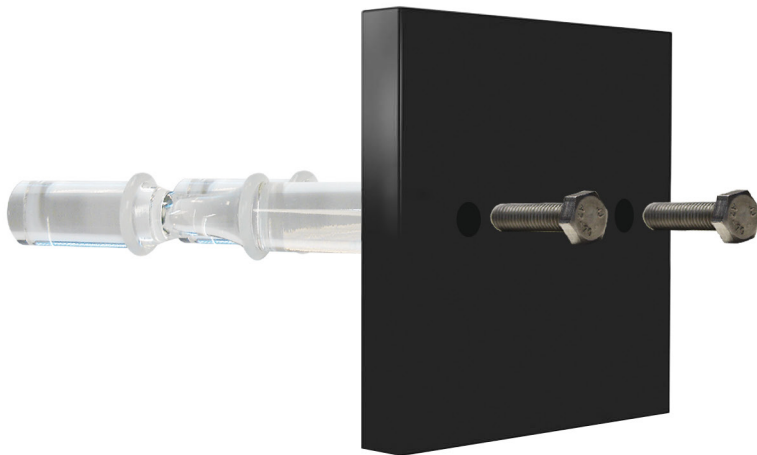

**1** Below is everything included with our Acrylic Peg Racking.

**2** Locate the backing board or wall space where you would like to install your peg racks. Drill the appropriate number of holes then insert your pegs into those holes.

**3** On the otherside of the backing board/wall, insert the included hex head cap screws.

**4** Using a wrench or similar tool, firmly turn the hex head cap screws until the pegs no longer move.
