- *Suggested 18 guage Brad Gun with 1/4" brad nails will make install easier.

Parts List:

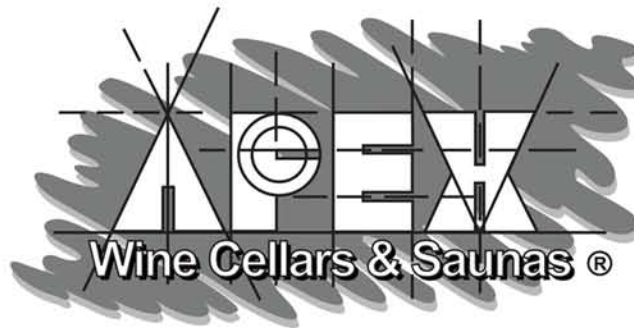

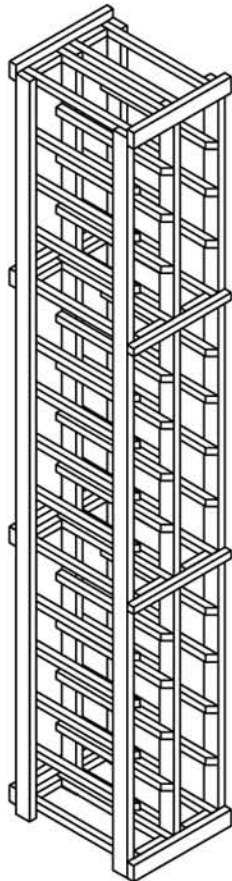

- (8) 2 1/2" Phillips screws for attaching to wall.
- (3) 1/4" Joining Screws to attach to other modules.

MGCH 6.1

- (36) nails

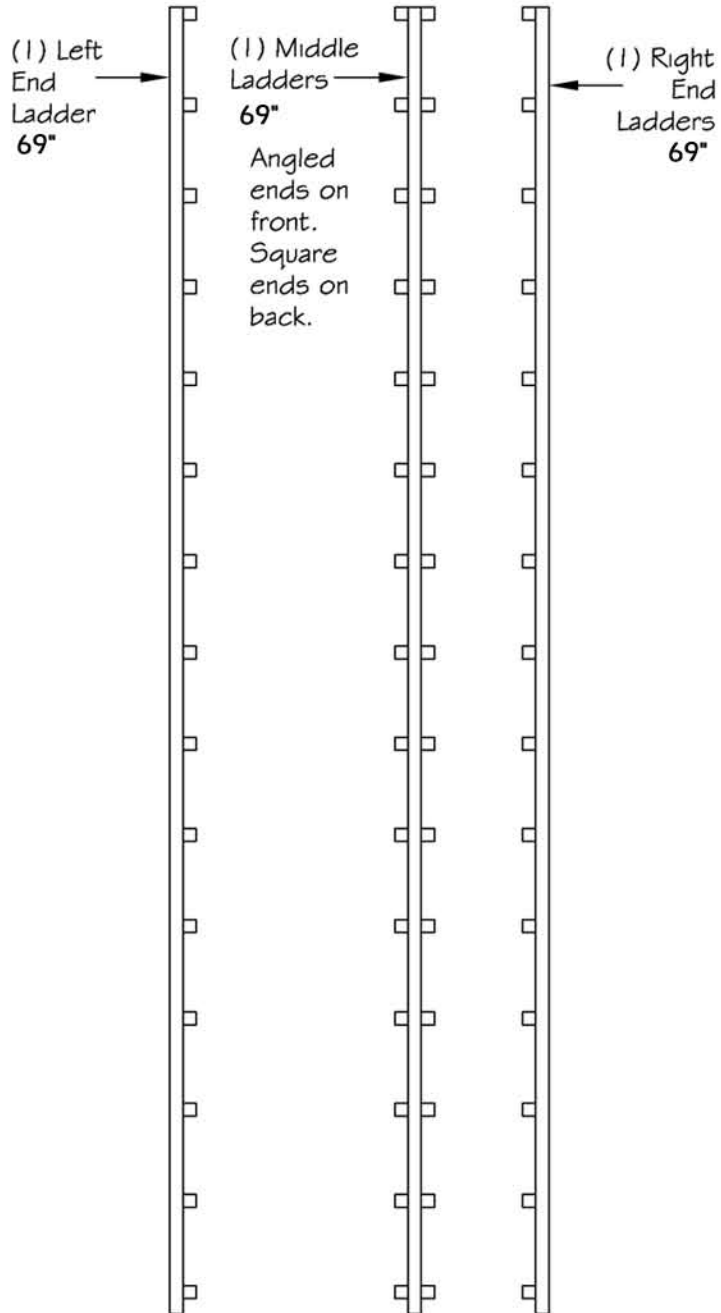

- (8) Drywall Inserts

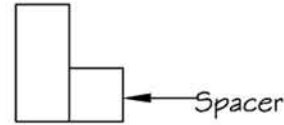

Assembly instructions for 6ft Champ/Mag Module. Racking.

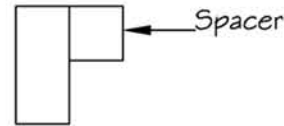

Champagne/Magnum-6.1

Side view of spacerbars "up" position

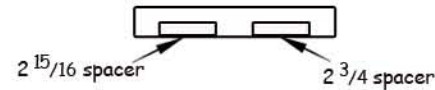

Side view of spacerbars "down" position

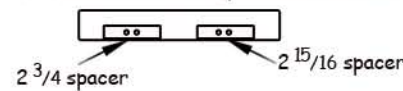

Note: the BACK spacerbar is determined by the nails showing from the flat 1 x 2 side, not the side with the spacers. FRONT spacerbar has the nails showing on the spacers.

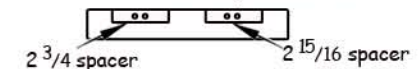

(4) 1 x 2 Back Spacebar 10 1/2"

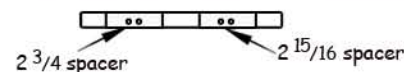

(1) 1 x 2 Front Spacebar 10 1/2"

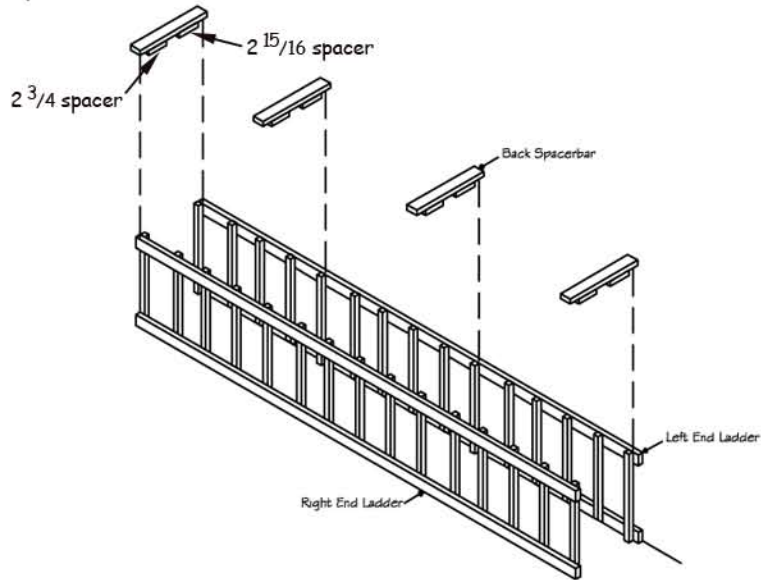

(1) 1 x 2 Front Spacebar 10 1/2"

(2) 1 x 1 Front Spacebar 10 1/2"

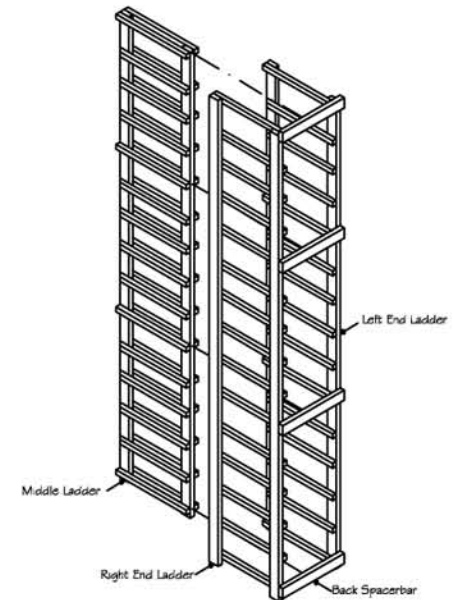

step 1

Step 1: (Attaching back spacerbars)

Take the right and left end ladders making sure the angled rails are facing the floor. Then take all five of the 1x2 BACK spacerbars and nail them to the end ladders at the 1st, 6th, 11th, and 15th rungs. The spacerbars need to be "up" so that the small block of wood is towards the floor.

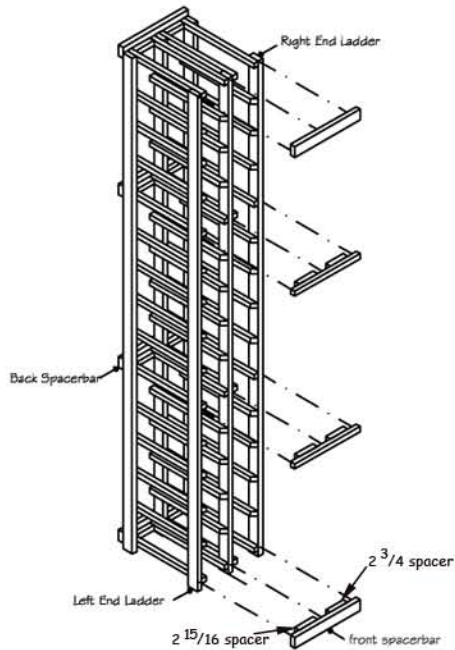

step 2

Step 2: (Attaching middle ladder to back spacerbars)

Stand up the rack. Insert the middle ladder into the slots of the spacer bar as shown. Nail the middle ladder onto the spacer bars as shown with the nails provided.

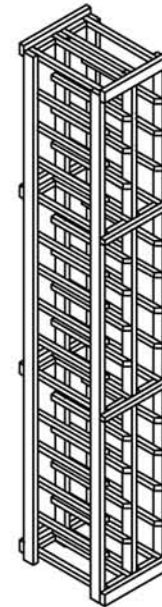

step 3

Step 3: (Attaching 1x2 & 1x1 front spacerbars)

Starting from the bottom, place a 1x2 spacerbar on the 1st and 15th rungs, and a 1x1 spacerbar at the 6th and 11th rung. Place one nail into each ladder to secure into place. All but the bottom spacerbar needs to be "up" so that the small block of wood is towards the floor.

step 4 Finish

Step 4: (Finish)

Fasten rack to wall with 2 1/2" screws through the back spacerbars and using a level to make sure the rack is mounted square on the wall.

Fastener Placement Guide

(36) nails
-Nail one at every point where the front and back spacer bars intersect a ladder as shown.
