

## EL-155SDWS

### EL-155SDWS Dual-Zone Wine Cooler

Store your wine collection at precise temperatures in this attractive Vinotemp Dual-Zone Wine Cooler. This wine cooler has 15 sturdy glide-out metal shelves with thick wood lips, a black body, and dual-pane glass door with stainless steel frame and pole handle. This wine refrigerator allows you to maximize your storage capacity with 14 full size shelves and 1 half size display shelf with enough room to store approximately 155 standard size bottles (750 mL) in the upper and lower zones combined. The digital temperature controller is located in the middle divider, allowing you to set the temperature at ease for the upper zone (40-55°F) and lower zone (55-72°F). Our inverter technology found in the compressor will cool both red and white wines properly and will operate quietly while using less energy. White interior LED lighting allows you to view your collection easily with a simple touch and your wine bottles can be secured safely with the built-in lock and key provided. A front exhaust allows the unit to be built-in or freestanding. With a sleek, stainless steel design, this wine cooler will be an excellent addition to your home.
