155-Bottle Dual-Zone Wine Cooler

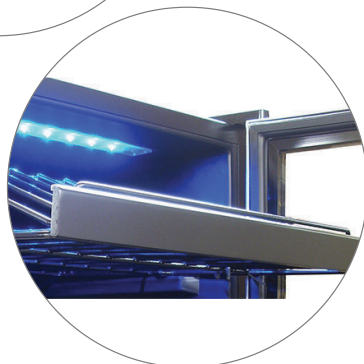

For sleek, stylish and sophisticated wine storage for your prized collection, the 155-Bottle Dual Zone Wine Cooler by Vinotemp is the perfect solution. This dual zone wine cooler allows you to set two separate temperatures to provide optimum conditions for up to 155 bottles of both your reds and whites. A conveniently located digital control panel makes setting the ideal temperatures a simple task. Contemporary styling includes a black body and a dual-pane glass door. Vinotemp's patented Ouzo™ wine racks with black lip cradles your collection behind a glass door with stainless steel trim. Thirteen sliding shelves and 2 half shelves provide easy access to your storage space, where 77 standard 750ml bottles fit in the upper zone and 78 in the lower. A front-exhaust allows this cooler to be placed as a built-in or freestanding unit.

Centrally located control panel

Patented wine racks with black lip

Top LED light and removable display shelf
