Allegro N and Focus N Kitchen

A sleek solid brass structure and exceptionally engineered interior belie the fact that the Allegro N and Focus N kitchen faucets can be easily installed and/or switched out, ideal for applications in rental properties and for quick and easy upgrades and renovations. The range includes a pull-down faucet spray version in HighArc and Prep faucet sizes, as well as a Bar faucet. HighArc models boast two sprays, including a laminar spray that's perfect for targeted filling, as well as a shower spray that's ideal for gently washing fruits and vegetables.

When it comes to style, the collection has universal appeal. Featuring rounded surfaces and soft edges, the faucets work well with a number of sink design styles from contemporary kitchen sinks to more transitional designs. Chrome and Steel Optic finishes allow the faucets to blend harmoniously into virtually any environment. Visit www.hansgrohe.com/design for more information.

SÉURA

SÉURA EXPANDS EXECUTIVE TEAM, ADDING RIAN CAIN AS VICE PRESIDENT OF SALES

Séura, an award-winning manufacturer of smart mirrors, TV mirrors, lighted mirrors, and outdoor TVs, welcomes Rian Cain as the new vice president of sales. In his new role, Cain will manage all sales operations for the Residential and Commercial Sales Divisions. Effect immediately, Cain joins Séura in its Green Bay, Wisconsin, headquarters.

"We look forward to Rian's strategic vision, sales development skills, and expertise in cultivating and nurturing sales teams," said Gretchen Gilbertson, Séura CEO. "Rian has deep roots and an exceptional track record in the appliance and electronics industries. We will look to his leadership and experience as we drive for continued growth of Séura's business in North America."

Cain is a results-driven sales leader who brings over 15 years of executive leadership roles in sales, marketing and merchandising across a number of consumer, commercial and contract durable products. He has extensive experience in the design, development and launch of a retail chain along with several new brands and products in North America. Prior to joining Séura, Cain held positions at Maytag, Sharp Electronics, Haier America, American TV and the Integer Group. His commitment to win, passion to drive results, and desire for teamwork will lead to his success at Séura.

"I am already aware of what a great team we have at Séura – a team that is very much focused on our clients and the end user," said Cain. "I am proud to be a part of this group as we build the business to new heights with, and for, our customers!"

Visit www.seura.com for more information about Séura.

Vinotemp

VINOTEMP ADDS 30-INCH GAS RANGE TO NEW LINE OF BRAMA APPLIANCES

As the latest offering in Vinotemp's Brama appliance line, the new Brama 30-inch freestanding gas range is a durable, powerful and versatile solution for small kitchens

Vinotemp®, the leading wine storage solutions and appliance provider, today announced the launch of the Brama 30-inch Freestanding Gas Range. The second addition to Vinotemp's new appliance line, Brama by Vinotemp, the new commercial-style range is designed to deliver power and versatility to any small kitchen.

"This launch is exciting for Vinotemp on a number of levels," says India Hynes, Vinotemp CEO. "As the second offering in our new appliance line, we're proud to offer this range because its features and performance represent the strength and function the Brama name implies. And as the first appliance to launch from our new Nevada headquarters, the new range symbolizes the growth of both our new kitchen appliance line and of Vinotemp as a brand."

Durable, versatile and ideal for small kitchens, the Brama 30-Inch Freestanding Gas Range also includes:

Powerful, professional-grade cooktop

A dual burner, four sealed high-performance burners (one with 18,000 Btu, one with 15,000 Btu and two with 12,000 Btu), easy-to-clean continuous grates, and large control knobs – with

blue light indicators that activate when the knob/burner is in use – power the functional, adaptable cooktop.

Numerous convection modes

A variety of convection modes including baking, roasting, dehydrating and defrosting ensure the oven easily acclimatizes from everyday needs to the demands of entertaining.

Durable, user-friendly features

Built to last, the range's body, top, legs and sleek pole handle are all stainless steel while the porcelain oven features adjustable shelving and a tinted glass window. The range also comes with a stainless steel drip pan, making broiling or convection roasting simple.

Visit www.vinotemp.com to learn more about Brama by Vinotemp and the latest addition to the kitchen appliance line, the Brama 30-inch Freestanding Gas Range.

Consumer Technology Association

CTA NAMES SIX INDUSTRY LEADERS TO THE 2019 CT HALL OF FAME, AND HONORS TWO INNOVATION ENTREPRENEUR AWARD WINNERS

The Consumer Technology Association® (CTA) announced the new class of inductees into its 2019 Consumer Technology (CT) Hall of Fame created in 2000. The program celebrates technology leaders who advance innovation and develop, create, market and promote the technologies, products and services that improve consumers' lives.

"We are thrilled to celebrate the 20th anniversary of the CT Hall of Fame program," said Gary Shapiro, president and CEO, CTA. He praised the 2019 inductees for their efforts to develop technologies and business models that have laid the foundation that our industry continues to build upon. "I am proud to honor the accomplishments of these leaders in the consumer technology industry that inspire each of us with their passion for innovation," he said.

The 2019 CT Hall of Fame class includes:

- **Colin Angle**, co-founder and CEO of iRobot and co-inventor of the Roomba vacuum cleaner, made robots in the home commonplace and created a new consumer technology product category. Under Angle's leadership, iRobot has grown from an MIT startup to the global leader in consumer robots, with more than 25 million robots sold worldwide.
- **James "Jim" Barry**, spent 18 years as an influential consumer technology reporter and editor, then 22 years appearing across the country on TV and radio as CTA's Digital Answer Man. It's possible
