ADJUSTABLE TEMPERATURE

dream house (n.) ideal, perfect house; the house one would like to live in one day. The house that has everything I'd want.

A Dream House is one that allows you to envision a number of exciting upgrades to your every day life, made possible by the house. To be clear, no house has the power to make your life perfect. That said, there are a number of ways your choices of home products can help you realize your dreams and be a suitable environment for your vision of the future of your life.
