Kitchen & Bath Business

**The Outdoor Living Phenomenon
Multigenerational Bathroom Design
A Look Back at KBIS 2017**

THE OFFICIAL PUBLICATION OF **KBIS**

SPECIAL KBS SECTION

25. The Foodie pre-rinse kitchen faucet from **DANZE** features a spring-action wand for flexibility and convenience that is commonly seen in commercial-grade kitchens. It is available in chrome, stainless steel and satin black finishes and uses a ceramic disc valve for a tight seal and drip-free performance.

26. GE APPLIANCES introduced its new Black Slate finish in select GE Café models. The deep charcoal finish can blend with other slate, stainless steel, black or white appliances and is easy to maintain – eliminating smudges. It is available for Café double wall ovens, single wall ovens, hoods and dishwashers – with refrigerators coming this spring.

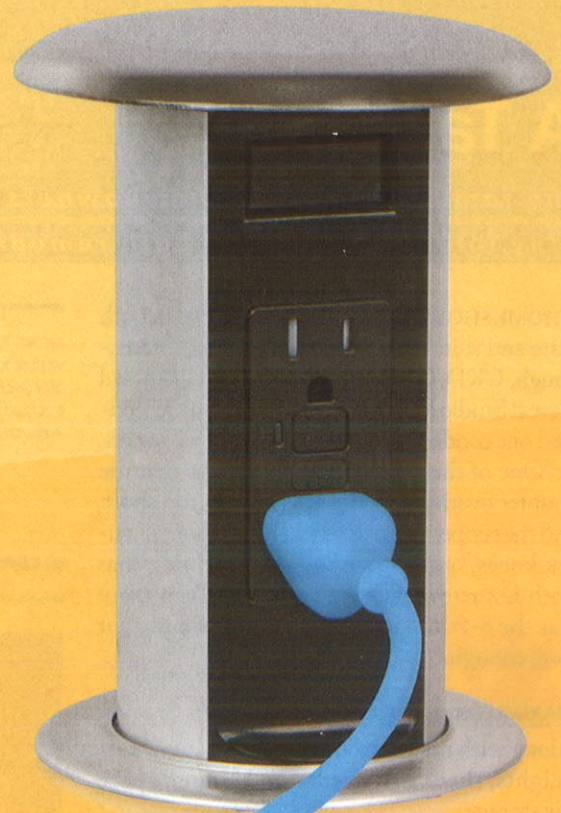

27. NIAGARA CONSERVATION'S Stealth Phantom Toilet uses the technology of air and water working together and offers a low 0.8 gallons per flush. The toilet is also ADA compliant for user comfort and ease.

28. The 7-Bottle Touch Screen Wine Cooler from **VINOTEMP** includes dual-pane glass windows and a black cabinet. Designed for built-in or freestanding installation, the unit has touch-screen temperature control, wire shelving to keep the bottles secure and soft-glow interior lighting.
