NEW PRODUCTS

1. PENDANTS

LED light shines from the layered, flowing shapes of the Abstract Rhythms pendants from Sonneman. The shades are made of metal with an optical acrylic diffuser. The lights come in standard (8 1/4 inches high with a 25 1/2-inch diameter), wide (9 1/4 inches tall, 32 inches wide, 7 inches deep), and tall (21 1/4 inches tall with a 12 1/2-inch diameter) formats, with textured white finishes. sonnemanawayoflight.com circle No. 850

2. WINE COOLER

Because younger buyers like the look, Vinotemp has introduced the 168 Bottle Smoked Black Stainless Steel Dual-Zone Wine Cooler. It has a sleek, smudge-proof black stainless steel finish with an easy-to-clean tempered glass door. Steel and wood wine racks make each bottle accessible, and a blue LED interior lighting system kills bacteria. The front-vented unit has two compartments that reach different temperatures (the upper zone is between 40° F and 56° F, the lower zone is from 54° F to 65° F), with touchscreen controls. vinotemp.com circle No. 851

3. WINDOWS

Weather Shield now offers expanded Set Windows from 60 square feet to owners who want larger expanses of glass frame that allows for narrow slits. It has a robust 3/4-inch jamb for structural strength. The larger direct sets are available in the Contemporary Collection and Premium Series circle No. 852

4. COUNTERTOPS

Secolo Porcelain Slabs from Walker marble, cement, and wood, but with the slabs are thicker than most por 3 mm to 5 mm. The thickness allows to be used as a countertop. Slabs are including those from acids; liquids; colorways, all with a polished finish.

2. WINE COOLER

Because younger buyers like the look, Vinotemp has introduced the 168 Bottle Smoked Black Stainless Steel Dual-Zone Wine Cooler. It has a sleek, smudge-proof black stainless steel finish with an easy-to-clean tempered glass door. Steel and wood wine racks make each bottle accessible, and a blue LED interior lighting system kills bacteria. The front-vented unit has two compartments that reach different temperatures (the upper zone is between 40° F and 56° F, the lower zone is from 54° F to 65° F), with touchscreen controls. vinotemp.com circle No. 851
