Four bottle residential wine dispenser

FROM: **Vinotemp**

[Request More Information](#)

Featuring the ability to store, cool, preserve and dispense wine from four bottles, the **Vinotemp** WineSteward system brings high-end restaurant style wine dispensing into the home. Using a compressor-based cooling and dispensing technology, the dispenser maintains a stable internal temperature despite environmental conditions. Its preservation system ensures bottles can be enjoyed up to 45 days. Inspired by European design, the dispenser's insulated glass door showcases each bottle, and a digital LED temperature display confirms temperature the wine is being stored and served.
